"...Sarabi is full of energy and very happy. She looks forward to meal time and has gained all her weight back... and her coat is glistening."
 -DeAnna G.

NuVet NuVet1

Manufacturing Process

INGREDIENTS

Only the highest quality, natural human-grade ingredients are used.

MADE IN THE USA

Proudly manufactured in a FDA registered human pharmaceutical facility.

PRODUCTION

Cold processed to maintain the rich nutrients of the ingredients.

RESULT

Holistic, natural supplement. NuVet Plus provides your pet with maximum immune system support.

At NuVet® we made it our mission to help our furry friends stay healthy. We are a team of top veterinarians and pet health experts who have made it our mission to help our furry friends stay healthy. We are a team of top veterinarians and pet health experts who have made it our mission to help our furry friends stay healthy.

NuVet® products are made in a FDA registered facility following GMP standards. Natural, human-grade ingredients specially formulated to deliver the most effective nutritional health supplement.

ALFALFA (Canine formula only) - A nutritious source of vitamins, minerals, enzymes, chlorophyll, and antioxidants. It is also used to maintain the structure of the gastrointestinal tract. Promotes the health of the digestive system. An excellent source of Vitamin K.

ALPHA AMYLASE - A digestive enzyme that augments the function of the pancreas. Helps break down food into the cellular network.

AMINO ACIDS - Plays an important role in supporting immune system function.

BETA CAROTENE - Serves as a powerful antioxidant that helps maintain a strong immune system. It is a source of Vitamin A.

BLUE GREEN ALGAE - A rich nutritional food that contains essential amino acids, chlorophyll and trace minerals. Helps support a healthy immune system. Promotes the health of the digestive system.

BREWER'S YEAST - Natural source of B-vitamins, including folic acid, that promotes healthy skin, coat, nerves and eyes.

CAT'S CLAW (Uña de Gato) - A natural source of flavonoids and antioxidants. Nourishes the immune system and promotes cardiovascular health.

CHICKEN LIVER - A rich source of essential amino acids, B-vitamins & minerals, including iron, copper and magnesium. Promotes a healthy nervous system. Helps maintain proper digestion, tissue development and overall health.

COPPER - An important mineral that supports healthy nerves, joints and skin.

EVENING PRIMROSE OIL - An essential fatty acid that helps support a healthy cardiovascular system. It is also used to maintain the structure of the cell membrane.

FOLIC ACID - Necessary for healthy growth and division of cells. Helps with cell formation. Needed for the production of energy and protein. Strengthens the immune system and functioning of healthy white blood cells.

IRON - Helps with protein synthesis and tissue growth. Important for energy production and a healthy immune system.

L-METHIONINE - An essential amino acid that aids in the digestion of fats in the small intestine. It helps maintain healthy skin and coat.

MAGNESIUM - Important for energy and provides support for the nervous system.

MANGANESE - Needed for normal skeletal and nerve development and bone health.

OYSTER SHELL - Provides calcium and phosphorus in the proper ratio for the functioning of the heart, nerves and muscles. Phosphorus is essential for bone health and kidney function.

PAPAIN - Helps in proper protein digestion. Supports a healthy digestive tract.

PINE BARK (Pycnogenol®) - A natural antioxidant that promotes healthy blood flow and cardiovascular health and joints.

POTASSIUM - Important for maintaining regular heart rhythm, a healthy nervous system and correct muscle function. Works with sodium to regulate the amount of water in the cells.

SELENIUM - A mineral needed for pancreatic function and tissue elasticity. Plays a vital role in regulating thyroid hormone and fat metabolism. Promotes a healthy heart and liver.

SHARK CARTILAGE (Sourced from non-endangered species) - An effective ingredient that supports joint health and maintains a strong and healthy immune system.

TAURINE (Feline formula only) - An essential amino acid that aids in the digestion of fats in the small intestine. It helps maintain healthy liver. Vital for maintaining the health of the heart muscle. It also supports cardiovascular health and the integrity of the retina of the eye.

VITAMIN B COMPLEX - Helps the nervous system. Promotes muscle tone in the gastrointestinal tract. Helps to maintain healthy skin, coat, eyes, mouth and liver.

VITAMIN B1 (THIAMINE) - Essential for normal functioning of the heart, nerves, muscles, skin and digestive system.

VITAMIN B2 (RIBOFLAVIN) - Essential for maintaining healthy eyes, skin, and coat.

VITAMIN B3 (NIACIN) - Promotes proper growth and function of the nervous system. Also helps maintenance of healthy skin, tongue and digestive system.

VITAMIN B5 (PANTOTHENIC ACID) - Plays an important role in the production of the adrenal hormones and normal functioning of the gastrointestinal tract.

VITAMIN B6 (PYRIDOXINE) - Assists with proper digestion and neurological function.

VITAMIN B12 (COBALAMIN) - Helps maintain the fatty sheaths that cover and protect nerve endings. Promotes proper cell formation and cellular longevity. Helps in the utilization of iron. Important for neurological function.

VITAMIN C (ESTER C®) - A powerful antioxidant that is vital for the immune system. Promotes the proper adrenal gland function. Helps support healthy eyesight.

VITAMIN E - A very effective antioxidant that protects the cell structure against free radicals. Aids in the utilization of Vitamin A. Important for maintaining a healthy immune system. Supports cardiovascular health, red blood cell production and cell growth.

WHEY PROTEIN (Feline formula only) - Contains peptides that help support healthy skin and coat.

ZINC - Required for protein synthesis and collagen formation. Promotes normal growth and cell division. Helps to maintain normal levels of Vitamin A in the lungs. Promotes a healthy immune system.
